

Samsung Galaxy S7 Battery Replacement

Learn how to replace the battery in your Samsung Galaxy S7.

Written By: Sam Lionheart

INTRODUCTION

Is your battery running out way too fast? Are you forced to recharge your S7 more than once a day? This guide will show you how to remove the tired old battery in your S7 and replace it with a new one.

This guide involves removing the rear glass cover, you will need replacement adhesive to reattach the back cover to the phone.

Before disassembling your phone, discharge the battery below 25%. A charged lithium-ion battery can catch fire and/or explode if accidentally punctured.

TOOLS:

- [Heat Gun](#) (1)
or iOpener
- [Phillips #00 Screwdriver](#) (1)
- [iSclack](#) (1)
or suction cup
- [iFixit Opening Picks set of 6](#) (1)
- [Spudger](#) (1)

PARTS:

- [Galaxy S7 Battery](#) (1)
- [Galaxy S7 Rear Cover Adhesive](#) (1)
- [Galaxy S7 Blank Rear Panel](#) (1)
- [Galaxy S7 Battery Adhesive Strips](#) (1)

To reassemble your device, apply adhesive to the back glass and follow these instructions in reverse order.
